

Beacon Oral Specialists Announces Six New Partnerships; Continues Expansion in California, Mid-Atlantic

New Agreements include Los Gatos Oral & Facial Surgery, Acquisition of ASIRD Platform

DALLAS (April **XX** 2022) – Beacon Oral Specialists, a portfolio company of Blue Sea Capital, announced today that it has entered into strategic agreements with six new practices, including partnering with one of the leading implant in the country, as it expands in two key geographies.

Dr. Lee Walker of Los Gatos Oral & Facial Surgery in Los Gatos, Calif., is among nine surgeons with eight locations to join Beacon's growing national network of oral surgery practices. Walker, who has lectured nationally and internationally on implant practice growth strategies, brings to Beacon a wealth of experience and expertise and is widely regarded as a thought leader in the OMS field. In addition to the flagship practice in Los Gatos, Walker and his associate, Dr. Brian Lee, also treat patients at their Cupertino location.

“QUOTE,” Walker said, “QUOTE.”

The Los Gatos practice is one of four new strategic partnerships secured by Beacon in California in recent months:

- Agoura Hills Oral Surgery -- Dr. Greg Urfrig practices in Agoura Hills, just north of Los Angeles.
- Chula Vista Oral & Maxillofacial Surgery Center -- Dr. John Tillner has been seeing patients in Chula Vista, south of San Diego, since 2009.
- Desert Maxillofacial Center, -- Dr. Milan Jugan sees patients throughout the Coachella Valley at his practice in Rancho Mirage which was first established in 1994.

In the mid-Atlantic, a new partnership with Loudon Oral & Maxillofacial Surgery adds to Beacon's significant presence in the region. Opened in 1994, the practice includes four surgeons treating patients in three locations in Loudon County, Virginia, just outside Washington, D.C. Drs. Andrew Bluhm, Steve Dorsch, Gene Vandervort, and Milan Dhanani continue the almost 30-year legacy, in offices in Ashburn, South Riding, and Leesburg.

As part of the Los Gatos agreement, Beacon will manage the American Society of Implant & Reconstructive Dentistry (ASIRD), an association aimed at educating consumers about implants as the best tooth replacement option and the importance of selecting a qualified oral surgeon and dentist team to perform the procedure.

ASIRD, found by Walker and several of his peers, also includes a shared marketing platform for oral surgeons and their referring partners which includes ongoing education and partnership on the latest dental implant techniques and innovations. A proven system to grow implant practices, ASIRD will be available exclusively to surgeons partnering with Beacon.

With the announcement of these six new agreements, Beacon is partnered with more than 80 Oral Surgeons, practicing in almost 70 locations across Northern (16) and Southern California (9), Nevada (2), Georgia (24), Virginia (9), and Maryland (8).

These latest Beacon partnerships reflect the platform's ongoing commitment to building a leading network of surgeons and practices aligned with the organization's focus on elevating the OMS specialty, sharing best practices, preserving clinical autonomy, and providing best-in-class care.
